Performance

Metrics

● First Contentful Paint	1.0 s	● First Meaningful Paint	1.0 s
● Speed Index	2.8 s	● First CPU Idle	1.0 s
● Time to Interactive	1.0 s	● Max Potential First Input Delay	20 ms

Values are estimated and may vary. The performance score is based only on these metrics.

**Diagnostics** — More information about the performance of your application. These numbers don't [directly affect](#) the Performance score.

- Minimize Critical Requests Depth — 5 chains found
- Keep request counts low and transfer sizes small — 8 requests • 22 KB

## Passed audits (22)

## Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

**Contrast** — These are opportunities to improve the legibility of your content.

- ▲ Background and foreground colors do not have a sufficient contrast ratio.

**Additional items to manually check (11)** — These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).

## Passed audits (6)

## Not applicable (28)

## Best Practices

**Passed audits (15)**

## SEO

These checks ensure that your page is optimized for search engine results ranking. There are additional factors Lighthouse does not check that may affect your search ranking. [Learn more](#).

**Content Best Practices** — Format your HTML in a way that enables crawlers to better understand your app's content.

▲ Document does not have a meta description

**Additional items to manually check (1)** — Run these additional validators on your site to check additional SEO best practices.

**Passed audits (11)****Not applicable (1)**

## Progressive Web App

These checks validate the aspects of a Progressive Web App. [Learn more.](#)

**Fast and reliable**

- Page load is fast enough on mobile networks
- Current page responds with a 200 when offline
- `start_url` responds with a 200 when offline

**Installable**

- Uses HTTPS
- Registers a service worker that controls page and `start_url`
- Web app manifest meets the installability requirements

**PWA Optimized**

- Redirects HTTP traffic to HTTPS
- Configured for a custom splash screen
- Sets a theme color for the address bar.

- Content is sized correctly for the viewport ✓
- Has a <meta name="viewport"> tag with width or initial-scale ✓
- Contains some content when JavaScript is not available ✓
- ▲ Does not provide a valid apple-touch-icon ✓

**Additional items to manually check (3)** — These checks are required by the baseline [PWA Checklist](#) but are not automatically checked by Lighthouse. They do not affect your score but it's important that you verify them manually.
